Professional Summary

Full Stack Developer with 4+ years' experience building scalable web and mobile apps using React, React Native, NestJS, and Laravel. Proven track record in Agile teams delivering robust fintech, SaaS, and e-commerce solutions. Proficient in REST API design, CI/CD automation, cloud deployments (DigitalOcean), and DevOps practices. Passionate about clean code, performance optimization, and modern UI/UX.

Technical Skills

Languages: JavaScript, TypeScript, PHP, HTML, CSS.

Frameworks & Libraries: React, React Native, Redux, Next.js, NestJS, Laravel, WordPress, Tailwind CSS.

Tools & Platforms: Git, GitHub, Postman, PM2, Jest, Fastlane, Shipit, DigitalOcean, Keap, Memberium, Zapier, LearnDash.

Other: RESTful APIs, CI/CD, DevOps, Agile, MongoDB, MySQL.

Professional Experience

Uvact Technologies – Remote | Lagos, Nigeria

Senior Full Stack Developer

May 2023 – Present

- Developed and maintained scalable front- and back-end features for fintech (Baff), e-commerce (Wara), and talent platforms (MillticketCasting).
- Reduced deployment time by 60% through DevOps automation using Fastlane and Shipit.
- Architected and engineered a secure loan module for Baff featuring auto/manual repayment, default handling, encrypted transactions, fraud detection, authentication hardening, and secure server infrastructure to enhance transaction safety and platform trust.
- Led DevOps efforts and implemented CI/CD pipelines, oversaw staging/production environments and managed DigitalOcean servers.
- Upgraded React Native versions from 0.71 to 0.75 while maintaining app stability and performance.
- Oversaw database migrations and redesigns with zero downtime and no data loss.
- Implemented a system for users on the Baff App platform to purchase and fund virtual USD cards, ensuring proper security against fraud.
- Built a feature that allows users to fund their Baff App Wallet using their credit cards.
- Debugged and resolved a recurring timeout issue on the Baff App's production server, implementing temporary stopgaps during investigation before ultimately restoring system stability and improving response times.

Stack: React, React Native, Jest, Fastlane, Shipit, NestJS, MongoDB, Laravel, WordPress, SQL, DigitalOcean.

Guardian HR – Remote | California, USA

Webmaster & IT Support

Jan 2020 – Dec 2022

- Maintained core IT infrastructure and custom WordPress site, ensuring seamless integration with third party APIs (e.g., Keap, Memberium).
- Configured and enforced email authentication protocols (DKIM, SPF) to improve deliverability and security.
- Built and managed staging environments to support safe feature testing and deployment.
- Led UI/UX redesign and custom plugin development, while maintaining 100% site uptime and uninterrupted business operations.

- Provided Tier 2+ IT support, resolving internal technical issues and maintaining system integrity across teams.

Stack: HTML, CSS, PHP, Keap, Zapier, LearnDash, WordPress

Freelance Developer – Remote, Nigeria

Full Stack Developer

Jan 2018 – Dec 2020

- Developed and launched multiple web applications and single-page apps (SPAs), including e-commerce stores and service platforms tailored to client needs.
- Delivered modern, responsive, and user-friendly websites for clients such as Divine Wisdom Schools, Savwal Enterprises, Anne's Wellness, DigitBull, and Mokh Data Inc.
- Utilized HTML, CSS, and JavaScript to create performant and maintainable front-end experiences, ensuring cross-browser compatibility and mobile responsiveness.

Stack: HTML, CSS, Javascript.

Intelligent Campaign Hub – Lagos, Nigeria

Intern / Junior Developer

Aug 2017 – Dec 2018

- Developed responsive front-end interfaces and supported backend integrations for projects including Simbi, DiscovaNG, and custom school admission systems.
- Used Python and TensorFlow for machine learning and data processing to build an automated admission system as part of my final year Computer Science project.

Stack: HTML, CSS, Javascript, Python, Tensorflow

Education

University of Benin – Benin City, Nigeria

B.Sc. Computer Science

July 2015 – Jan 2020

Project Portfolio

Baff App

A fullstack, cross platform, fintech mobile app to help users properly manage finances.

Tech stack: React Native, Redux, NestJS, RESTful API.
Available on the play and app stores.

Baff

Landing page for loan features on the Baff App.

Tech stack: HTML, CSS, JavaScript

<https://baffapp.com/>

Guardian HR

Served as webmaster on this project, managing IT infrastructure and providing technical support.

Tech stack: Wordpress.

<https://guardian-hr.com>

Wara

A full-stack e-commerce platform for ethnic Nigerian foods.

Tech stack: Next.js, Laravel, GraphQL API

<https://wara.app/>

MillticketCasting

Full-stack talent casting platform migrated from WordPress to React + Laravel, using a RESTful API. Managed zero data-loss migration from WordPress MySQL schema.

Tech stack: React, Laravel, RESTful API, MySQL

<https://millticketcasting.com/>

ProperPlates

An ecommerce website that sells the properplates products.

Tech stack: React, Laravel, RESTful API, MySQL

<https://properplates.com>

Gobabeego

E-commerce site selling baby clothes and accessories.

Tech stack: WordPress

<https://gobabeego.com/>

Divine Wisdom Schools

Front-end redesign and reimplementation of the school's website for modern standards.

Tech stack: React, NestJS

<https://www.divinewisdomschoolsintuteintl.org/>

Savwal

Custom full-stack e-commerce site for solar and computer products, with RESTful APIs.

Tech stack: Next.js, NestJS, RESTful API

<https://savwal.com/>

Anne's Wellness Harbour

Single-page app marketing the Anne's Wellness Harbour brand.

Tech stack: HTML, CSS, JavaScript

<https://anneswellnessharbour.com/>

Mokh Data Inc.

Single-page app showcasing the Mokh Data brand and services.

Tech stack: HTML, CSS, JavaScript

<https://mokhdatainc.com/>

Digit Bull

Single-page app promoting the DigitBull brand.

Tech stack: HTML, CSS, JavaScript

<https://digitbull.com/>
